### 8.6" Professional Compression Tool

## QP - 611RG

8.6" Professional Compression Tool

### Instructions:

8.6" Professional Compression Tool

Adjustable for Waterproof Connectors RG-59, 6(4C,5C), RG11, F, BNC and RCA

#### Instructions:

1. First, assembly RG-59/RG-6/RG-11 cables and connectors as show in FIG.1
2. Choose the crimping waterproof connector. Adjust and set waterproof connectors space as show in FIG.2
3. Release the blue handles, insert the connector and cable straight into the crimper as show in FIG.3
4. Crimping the handles until the handles stop, as show in FIG. 4
5. Release the handles and take out the crimped connector.
6. Use with QP-501B for stripping cable
